You may use a cell phone, cordless telephone, or corded telephone to adjust your hearing system. The telephone MUST “beep” when the keys are pressed for this function to work.

- Hold the phone approximately 3 inches from the ear
- Press ** to “wake” T² (a tone series indicates that it is ready for a command)
- T² will “sleep” after 20 seconds
- Press the telephone key that corresponds to the desired function

Use the following keypad buttons to remotely adjust your hearing aid settings.

- **Volume** ▲
- **Memory** ▼
- **Volume** ▼
- **Press 2 times to wake**
